
a
Methanol: 310 literature candidates, 40 groups
excluded by the bound (199)
evaluated in full (111)
lower bound (EUR t^{-1})
full plant cost, recycled CO (EUR t^{-1})
b
Ammonia alloy and metal surfaces
Fe 15.29
406 surfaces inside the cost cap shown (401 bimetallic, 5 pure metal; of 1695 costed)
excluded by the bound (118)
optimized in full (288)
lower bound (USD t^{-1})
full plant cost (USD t^{-1} NH$_3$)
c
Full optimizations saved
evaluated in full
excluded by the bound
methanol, recycled CO
111 / 310 evaluated; 199 excluded (64.2 %); leaders missed 0
methanol, inert CO
212 / 310 evaluated; 98 excluded (31.6 %); leaders missed 0
ammonia alloys, frozen prices
66 / 309 evaluated; 243 excluded (78.6 %); leaders missed 0
ammonia alloys, frozen + USGS prices
298 / 1695 evaluated; 1397 excluded (82.4 %); leaders missed 0
